

OKEKE KACHI FELIX

Software Engineer

Abuja, Nigeria | +234 703 923 3521 | okekefelix51@gmail.com | [GitHub](#) | [Portfolio](#) | Open to Remote & On-site

PROFESSIONAL SUMMARY

Recent Software Engineering graduate with hands-on experience building full-stack web and mobile applications using JavaScript, React, Next.js, Node.js, Express.js, MongoDB, and Firebase. Completed three technical internships spanning backend development, frontend engineering, and IT training, delivering RESTful APIs, responsive interfaces, and secure authentication systems. Graduating with a CGPA of 4.59/5.00. Passionate about writing clean, scalable code and building user-focused software products.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+)

Frontend: React, Next.js

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, Firebase Firestore

Tools & Technologies: Git, GitHub, Firebase Authentication, Cloudinary

PROFESSIONAL EXPERIENCE

IT Trainer — Bizmarrow Technologies

Jul 2025 – Oct 2025

- Delivered practical IT training sessions covering computer fundamentals and core software applications to learners.
- Guided learners through hands-on technical exercises, troubleshooting issues to reinforce practical understanding.
- Supported students in building foundational computing skills, improving session engagement and comprehension.

Backend Developer Intern — Ptechloop LTD

Jul 2024 – Oct 2024

- Built backend services using Node.js, Express.js, and MongoDB to support full-stack web applications.
- Designed and implemented RESTful APIs to handle core application logic and data operations.
- Collaborated with a cross-functional team on end-to-end feature development and delivery.

Frontend & Graphic Design Intern — Danisoft

Jul 2023 – Oct 2023

- Developed responsive web interfaces using HTML, CSS, and JavaScript for client-facing applications.
- Designed graphics and UI assets to strengthen visual consistency across products.
- Applied frontend development and UI design best practices under senior developer guidance.

SELECTED PROJECTS

SafeSpeak – Secure SGBV Reporting Platform | [GitHub](#)

Built a secure platform for anonymous SGBV reporting and case tracking using React Native, Node.js, Express.js, Firebase Authentication, Firestore, and Cloudinary, implementing secure authentication, evidence uploads, and real-time data management.

Home Décor E-Commerce Platform | [Live Demo](#) | [GitHub](#)

Developed a full-stack e-commerce application with authentication, product management, shopping cart, and order processing using React, Node.js, Express.js, MongoDB, and Cloudinary.

Kachploy – Job Recruitment Platform | [GitHub](#)

Designed a recruitment platform connecting job seekers with employers using React, Express.js, and Firebase, implementing authentication, job posting, and application management for production deployment.

EDUCATION

B.Sc. Software Engineering — Veritas University, Abuja

Current CGPA: 4.59/5.00 (Final results pending)
