

OKEKE KACHI FELIX

SOFTWARE ENGINEER | FULL-STACK DEVELOPER

Abuja, Nigeria | +234 703 923 3521 | okekefelix51@gmail.com | [GitHub](#) | [Portfolio](#) | Open to Remote & On-site

PROFESSIONAL SUMMARY

I am a Software Engineer with experience building full-stack web and mobile applications using JavaScript, React, Next.js, Node.js, Express.js, MongoDB, and Firebase. I have completed three software engineering internships delivering REST APIs, responsive user interfaces, authentication systems, and scalable backend services. Expected final CGPA: 4.59/5.00 (official release pending).

Core Technologies

Languages: HTML5, CSS3, JavaScript (ES6+)

Frontend: React, Next.js

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, Firebase Firestore

Tools & Technologies: Git, GitHub, Firebase Authentication, Cloudinary

PROFESSIONAL EXPERIENCE

IT Trainer — Bizmarrow Technologies

Jul 2025 – Oct 2025

- I delivered practical IT training sessions covering computer fundamentals and core software applications to learners.
- I guided students through hands-on technical exercises, troubleshooting issues to reinforce practical understanding.
- I supported students in building foundational computing skills, improving session engagement and comprehension.

Backend Developer Intern — Ptechloop LTD

Jul 2024 – Oct 2024

- I built backend services using Node.js, Express.js, and MongoDB to support full-stack web applications.
- I designed and implemented RESTful APIs to handle core application logic and data operations.
- I collaborated with a cross-functional team on end-to-end feature development and delivery.

Frontend & Graphic Design Intern — Danisoft

Jul 2023 – Oct 2023

- I developed responsive web interfaces using HTML, CSS, and JavaScript for client-facing applications.
- I designed graphics and UI assets to strengthen visual consistency across products.
- I applied frontend development and UI design best practices under senior developer guidance.

SELECTED PROJECTS

SafeSpeak – Secure SGBV Reporting Platform | [Live Demo](#) | [GitHub](#)

I developed SafeSpeak, a secure full-stack SGBV reporting platform enabling anonymous incident reporting, real-time case tracking, role-based case management, secure evidence uploads, and survivor–caseworker communication. Built with React Native, Node.js, Express.js, Firebase Authentication, Firestore, and Cloudinary.

Home Décor E-Commerce Platform | [GitHub](#)

I developed a full-stack e-commerce application with authentication, product management, shopping cart, and order processing using React, Node.js, Express.js, MongoDB, and Cloudinary.

Kachploy – Job Recruitment Platform | [GitHub](#)

I designed a recruitment platform connecting job seekers with employers using React, Express.js, and Firebase, implementing authentication, job posting, and application management for production deployment.

EDUCATION

B.Sc. Software Engineering — Veritas University, Abuja	2022-2026
Current CGPA: 4.59/5.00 (Final results pending)
